

QUALITY POLICY STATEMENT (NIS ISO 9001:2015)

Bell Oil & Gas is dedicated to providing a Quality Management System that covers all systems, processes and procedures, as well as applicable statutory and regulatory requirements to ensure high quality standards in the provision of Composite Pipe Systems, Well Services, Flow Control, Rotating Equipment, Line Pipes & OCTG, Supply Chain & Project Management, Surface Protection & Inspection and Technical Consultancy Services to our customers, interested parties and other stakeholders.

The Bell Oil & Gas Quality Management System embeds an effective risk management system in achieving the organisations strategic goals and objectives.

The tenet of this policy is understood by all and it will be reviewed every three (3) years for continued suitability.
